Mr Jerry E Camfield  
Post Office Box 1358  
Decatur, Illinois 62525

Dear Mr Camfield

This letter is in response to your special waste stream application for 40 weight motor oil from PPG Industries, Inc

Your application for permit to accept this special waste has been denied. You have failed to provide proof that your facility will not cause violations of the Illinois Environmental Protection Act and regulations adopted thereunder if you dispose of, treat or store the waste stream described in the permit application. Section 39(a) of the Illinois Environmental Protection Act (Ill. Rev Stat, 1979, Ch 111 1/2, par 1039(a)) requires the Agency to provide the applicant with specific reasons for the denial of the permit application. The following reason(s) are given for denial of this permit application:

- 1 EP toxicity test results for the waste stream were not provided
- 2 The pH of the waste stream was not specified
- 3 Total and reactive concentrations of sulfide and cyanide were not specified

Should you have any questions regarding this denial, please contact Jim Moore at 217/785-2891

Very truly yours,

Lawrence H. Camber, P.E., Manager  
Permit Section
